

Lokesh Rawat

Full Stack Developer

Kalagarh, Uttarakhand | +91 8979668105 | lavi29july@gmail.com | GitHub

Professional Summary

Full Stack Developer skilled in MERN stack development, REST APIs, responsive web applications, and database-driven solutions. Passionate about building scalable products, writing clean code, and continuously improving technical and problem-solving skills.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, React.js, React Native, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Authentication

Database: MongoDB, PostgreSQL

Tools: Git, GitHub, VS Code, Figma, npm, Chrome DevTools

Concepts: Responsive Design, JSON, API Integration, AI API Integration

Education

Bachelor of Computer Applications (BCA)

2023 – 2026

Shriram Institute of Management and Technology, Kashipur, Uttarakhand

Expected CGPA: 7.0+

Projects

Corbett Safari Booking Website

React.js, Node.js, Express.js, MongoDB, Mongoose

- Developed a full-stack safari booking platform for Jim Corbett National Park, allowing users to explore safari zones, tour packages, accommodations, and submit booking requests online.
- Designed and implemented a responsive React.js frontend with interactive package cards, image galleries, booking forms, destination highlights, and mobile-friendly navigation.
- Built RESTful APIs using Node.js and Express.js to manage booking requests, customer inquiries, package information, and dynamic content.
- Integrated MongoDB with Mongoose for storing customer details, booking records, package data, and inquiry management.
- Optimized application performance through reusable React components, structured routing, and efficient state management.
- Implemented form validation, error handling, and secure API communication to improve reliability and user experience.
- Designed the application architecture to support future enhancements such as online payments, user authentication, booking confirmation emails, and an admin dashboard.
- Deployed the frontend on Vercel and followed modern development practices using Git and GitHub for version control.

Speakify – AI English Learning Platform

In Progress

React.js, JavaScript, HTML, CSS, Figma

- Developed frontend screens for an AI-powered English learning platform using React.js.
- Created reusable components, onboarding flows, dashboards, speaking sessions, and progress tracking.
- Designed wireframes, branding, user journeys, and UI/UX layouts using Figma.
- Planned AI features such as pronunciation analysis, grammar correction, and personalized recommendations.

Personal Portfolio Website

[View Project](#)

HTML, CSS, JavaScript

- Built a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Showcased projects, skills, and contact information with modern UI design and smooth animations.
- Optimized layouts for performance, mobile responsiveness, and cross-device compatibility.

Interests

Playing Football, Listening to Music, Fitness Activities, Exploring New Technologies, Team Sports and Outdoor Activities
